We believe by having the initiative and its ability to be transformative and offer unique contributions to public policy and community change at scale. We believe that the NSGIs can help us to better understand, capture, and communicate several “big stories” about the prevention and coverage for all. "Health Happens with Prevention!"

Goals and Indicators:

1. Health Happens with Prevention
   - Youth and adults experience more positive health and wellness for all students.
   - Schools implement positive discipline practices centered on trauma-informed principles to promote health and healing.
   - Health & Justice 4 All
     - As evidenced by... Health & Justice 4 All
     - As evidenced by...

2. Health Happens in Neighborhoods
   - Cities and counties, with state partners, include health-promoting physical improvements in land use planning and policies, make successful re-entry into community life.
   - neighborhoods and shift resources into land use decisions, stabilize state and tribal partners, build health connections and health benefits from living in their communities.
   -"Health Happens in Neighborhoods"

3. Health Happens in Schools
   - California public schools provide a comprehensive fashion.
   - Students stay in school, maintain their attendance and experience academic success.
   - Schools implement positive discipline practices centered on trauma-informed principles to promote health and healing.
   - Health Happens in Schools
     - As evidenced by...

4. Health Happens with Prevention
   - Low-income and hard-to-reach populations have voice, agency and power in decision-making processes affecting policies and public and private decision making to ensuring the highest level of health for all people, by improving the systems and conditions for health equity gaps.
   - As evidenced by...

North Star Goals and Indicators:

- The true North Star of BHC is the achievement of “health & justice for all.” We have identified four goals that will lead us to our north star that will set our North Star of the initiative and where success looks like in 2020.
- Essentially the North Star Goals and Indicators crystalize where the work of BHC is focused.
- GOAL 1: Building Voice and Power for a Healthy and Inclusive California
  - Access to health care and health resources and coverage for all.
  - Philanthropic Role:
  - State and Local Alignment:
  - Youth Leadership:

- GOAL 2: Health Happens with Prevention
  - Low-income and hard-to-reach populations have voice, agency and power in decision-making processes affecting policies and public and private decision making to ensuring the highest level of health for all people, by improving the systems and conditions for health equity gaps.
  - As evidenced by...

- GOAL 3: Health Happens in Neighborhoods
  - Cities and counties, with state partners, include health-promoting physical improvements in land use planning and policies, make successful re-entry into community life.
  - neighborhoods and shift resources into land use decisions, stabilize state and tribal partners, build health connections and health benefits from living in their communities.
  - Health happens in neighborhoods!

- GOAL 4: Health Happens in Schools
  - California public schools provide a comprehensive fashion.
  - Students stay in school, maintain their attendance and experience academic success.
  - Schools implement positive discipline practices centered on trauma-informed principles to promote health and healing.
