

Wins

Broken down into campaigns, our partners earned 552 wins for our neighborhoods, 343 wins for our schools, and 125 wins for prevention across our 14 chosen sites.

2010-2019

ALL BHC ACCOMPLISHMENTS

Policy, Systems Change, and Tangible Benefits

Policy, Systems Change, and Tangible Benefits Overview

The wins cited below reflect the full spectrum of priorities championed by 14 California communities in the areas of neighborhoods, schools and prevention. They represent substantial progress toward Building Healthy Communities' goals and demonstrate how the power of people contributes to racial and health equity for all Californians.

NUMBER OF WINS

- Policy
- Systems Change
- Tangible Benefits

Definitions

Policy - A policy change attempts to change public laws, regulations, rules, mandates (public policy), or budgets/funding.

Systems Change - A systems change attempts to shift the way broader systems (e.g., health, public safety, local government) make decisions about policies, programs, and the allocation or use of resources.

Tangible Benefits - A tangible benefit is defined as a newly established physical asset (building), space or facility (e.g. community centers, parks, health centers), as well as physical improvements (e.g. such as walking trails, playground equipment and murals) that resulted from TCE and/or BHC collaborative support within the site.
